DONATION REQUEST

To Whom It May Concern,

My name is Riley Gellatly and I am a Grade 8 Homeschooling student and a member of the KWCHEA (Kitchener/Waterloo Christian Home Educators' Association) and the KW SCHOLARS. I am on a mission to teach 5,000 kids in the Kitchener/Waterloo area (grades 4-8) how to solve the Rubik's Cube during the 2019/2020 school year to help empower a generation of kids.

From the moment I learned how to solve the Rubik's cube, I immediately thought that every child should be taught this because of all the benefits it offers. The list includes; pride of accomplishment, improved memory skills, problem solving skills, critical thinking skills and hope (situations that seem impossible are actually possible)! It has also increased my confidence and optimism, expanded my social circles and I feel empowered! I would like nothing more than to share this gift of being able to solve one of the world's most challenging puzzles with the K/W students so they too can receive the benefits and take that knowledge and empowerment and carry it forward for the rest of their lives.

I have designed a program that can teach almost anyone how to solve the 3x3 Cube in four one-hour, fun and interactive lessons. All materials will be provided for the lessons (cubes, instructions booklets, slide presentation and video demonstrations). And certificates will be issued to the students at the end of the program.

Now, if you thought empowering students in this unique way was a great idea, then you will be thrilled to know that I will be holding a record-breaking summit event in June of 2020 at the Kitchener Auditorium where all participating schools, groups and organizations (5,000 + students) will gather to solve the cube at once, breaking the Guinness World Record!

We would greatly appreciate it if you would consider donating and supporting this once in a lifetime opportunity for so many children in the KW area. There is a long list of needs and requirements that we are struggling to meet in order to run this program effectively in the schools and prepare for the summit event. For a full list of options and the link to donate, please visit my website at www.cuberscornerclub.com. Benefits for supporting such an event and any of our programs, include public recognition on all media platforms and marketing materials, a pass to the Guinness World Record Breaking event on June 3, 2020 and most importantly, you will be helping to empower our students today, so they can succeed tomorrow.

On behalf of my team and myself, we thank you for your time and generosity and we look forward to working with you on empowering students in this unique way. Together, we will be raising the bar of the emotional and intellectual levels of the next generation of kids and letting the world know that you stand behind its students.

Happy Cubing,

Riley Gellatly
